Beta Marine 10 to 45 small engine range

Repower your boat with Beta Marine engines

AD Marine offers all of the quiet, reliable and economical Beta Marine engines, from 10hp small engines up to 150hp for large seagoing vessels.

Beta Marine has also achieved considerable success in producing an innovative and reliable hybrid engine solution, as well as saildrive systems and packages to suit pleasure craft and professional boats.

About Beta Marine

Beta Marine was formed in 1987 by four marine engineers.

Their objective was to provide reliable diesel marine engines to suit individual boat owner requirements, rather than to be dictated to by big boat builders.

This marine expertise rapidly gained Beta business, linked with sensible engine pricing.

Beta is now a major equipment supplier to the international yacht, sports and work boat markets, and has supplied over 25,000 marine diesel engines.

Beta Marine engines

Beta Marine has a deserved reputation for compact, quiet and reliable heat exchanger cooled diesel marine engines.

The Beta small engine range is based on technically advanced, high quality Kubota diesels that give very smooth, quiet power.

Torque is immediate at low RPM and maximum power normally available at mid RPM.

They meet all RCD 2 exhaust emission regulations, are priced competitively, and all include a five year 'self service' warranty.

BETA MARINE

Developing the Beta 45 engine

Beta Marine has an excellent reputation for providing replacement engines to suit difficult applications, but in 2014 their customers started asking for a slightly more powerful engine than the Beta 38, due to limited room to accommodate the top selling Beta 43 engine.

Laurance, Beta's Technical Director, got to work developing the new Beta 45 engine, based on the Beta 38 with a low pressure turbine.

This means it has the same small size as a Beta 38, but develops its peak power at just 3,000 rpm, making it a quieter engine overall.

Quiet, reliable and economical engines

BETA MARINE

Beta Marine 10 to 45 small engine range

Designed for smaller sports boats and yachts, these quiet, reliable and economical Beta Marine diesel engines range from 10hp up to 45hp.

With a range of approved partners like AD Marine, Beta Marine also has a national and international support network to ensure peace of mind.

| Beta Engine | Capacity cc | Power BHP | Weight Kg |
|-------------|-------------|-----------|-----------|
| Beta 10 | 479 | 10 | 89 |
| Beta 14 | 479 | 13.5 | 90 |
| Beta 16 | 599 | 16 | 95 |
| Beta 20 | 719 | 20 | 104 |
| Beta 25 | 898 | 25 | 113 |
| Beta 30 | 1123 | 30 | 139 |
| Beta 35 | 1498 | 35 | 168 |
| Beta 38 | 1498 | 38 | 168 |
| Beta 45 | 1498 | 45 | 175 |

Small engine range

2 cylinder Beta 10, 14 and 16 diesel engines offer 10 to 16hp.

The Beta 20, 25 and 30 are diesel 3 cylinder engines of 20 to 30hp.

The Beta 35 and 38 are diesel 4 cylinder engines of 35 & 38hp.

The Beta 45 is a turbocharged diesel engine developing 45hp.

A full set of small engine spares is also available as full toolbox parts kits or individual spares from AD Marine Services.

We fit all models of Beta Marine engines

AD Marine is a family business that has serviced boats around south coast marinas for 40 years. With qualified marine engineers and our fully equipped workshop at Sparkes Marina we upgrade, service and customise boat engines for reliable running and peak performance.

Our experienced staff have undertaken multiple Beta Marine engine installations for sports boat and yacht owners over the years.

To repower your boat with a Beta Marine engine call AD Marine.
